

BLUE STAR IMAGING | AT THE STAR

To: Fry Construction
Re: Blue Star Imaging at the Star Construction

Mr. Fry,

I wanted to write a letter regarding Ernest Carrasco and to specifically acknowledge his hard work and dedication to our project. As you know, we had a bumpy start at our facility and everyone from your team at Fry Construction showed professionalism and dedication that we at Blue Star truly appreciate.

Ernest was present daily and kept me well informed on the construction taking place. He managed to keep the noise and mess of a usual construction site to a minimum which in turn allowed us to continue with business as usual. Ernest made certain that all aspects of the process met our expectations and if there was a question, he was quick to ensure we understood any details.

As for the timing of the project, we could not have been happier. The construction ran smoothly and was ahead of any deadlines set by GE. Thanks to Ernest and your team, we are finally running the way we should have been a year and could not be more thankful.

Sincerely,

Michelle Vig,
Director of Imaging
Blue Star Imaging at The STAR
