

CENTER FOR
DIAGNOSTIC IMAGING

To whom it may concern:

I wanted to express my appreciation for a job well done on our recent new clinic build-out in the Village Independence building. This was the first project we have done with Fry Construction and they exceeded expectations. The team of Nick Kiel and Jimmy Stevens made the project run smoothly and ahead of schedule even with a tight timeline. I look forward to doing many more projects with Fry Construction because I know they will be handled with professionalism and done at the highest quality.

Thank you for your hard work,

Sincerely,

Jake Vogt

Senior Construction Project Manager
