

I am writing this letter to express my opinions concerning the capabilities and experience of Fry Construction Company.

My firm has an eleven year history in working with Ben Fry and his construction company, and most of the projects have been medical and imaging facilities. I have also recommended Fry Construction as the contractor for numerous projects.

With no exceptions, Fry Construction Company has always performed at the highest level and has met or exceeded the expectations of the client. Mr. Fry is the foremost contractor and installer of imaging equipment in this part of the country. The imaging manufactures often insist that Fry Construction Company be hired to install their equipment.

As a person, Ben Fry is experienced, knowledgeable, and extremely honest and fair in all of his dealings with clients, sub-contractors, and design consultants. Again, I highly recommend Fry Construction Company for any type of medical construction or imaging installations.

Sincerely,

Dale Caffey, P.E.
