

Ben,

As this project comes to a close I want to thank you. I've been in the imaging business for nearly 30 years have been involved in many projects. This by far has been the most stress free. From the planning to the construction all done with ease.

Also as far as your pick for job superintendant on this project. Awesome. Jimmy has been nothing but professional and extremely knowledgeable and easy to work with.

The new build out looks better than I could have imagined.

Thank you,

Don Rogers
Radiology Director
Graham Regional Medical Center
