

KINCHELOE

The Fry Construction Company has accomplished many MRI, CT, Cath Lab, and General Radiology construction projects as the R.P. Kincheloe Company's "contractor of choice" for turnkey projects. Over the years we have had all around good experiences with every project we have accomplished together whether they were hired "Turnkey" by the R.P. Kincheloe Company or the Facility doing the project. Their attention to detail and thorough pre-bid investigation of a project, coupled with their vast experience with MRI, CT, Cath Lab, and General Radiology construction, leads to a project that you can guarantee will come in on time and on budget. They are a pleasure to work with and are responsive to our needs.

John Perry, R.P.
Service Support Manager
