

LBL Architects is pleased to provide a letter of recommendation on behalf of Fry Construction Company. We served as the architect on several medical projects that Fry Construction Company served as the Contractor.

Ben Fry and his staff are knowledgeable and dedicated. They have consistently provided high quality service while providing competitive pricing and timely delivery projects. This is a difficult task in todays complex construction industry.

LBL Architects highly recommends Fry Construction Company. Feel free to call us if you have any questions.

Michael Barnard, AIA
Vice President
