

LUBBOCK RADIOLOGY, L.P.

I am writing this letter to congratulate you on a job well done in our imaging center. Both projects your company has overseen have been well thought out and performed in an efficient and very coordinated manner. All of your staff, from your assistants to your supervisors, are extremely professional and helpful. You are always very courteous with my repeated phone calls and questions.

Fry Construction became our partner in helping our business grow. We thank you for helping our imaging center to succeed. It is very clear you take much pride in what you do and I appreciate the relationship you have built with us.

As radiology and technology progresses, we will definitely be calling Fry Construction for our needs in the future.

Amy Lambright RT (R,M)
Lubbock Radiology, L.P.
