Subject: Texas Oncology Amarillo PET CT Project Completion

7-9-2020

Good Morning Nick,

We just completed the punch walk for Amarillo PET CT and I wanted to pass along how pleased I was with the space and with you, Evan and Fry's work as a whole on this project. I know there were a lot of complications with the project, but Evan was able to turn out a great project! Luis and his team were very pleased with the space and Luis expressed how impressed he was with Evan as well. We had a few minor things on the punch list, but those things do not deter from the excellent work! Fry's work as a whole has been very good on all the projects we have worked on together this past year or so, but this one seems to be a step above even that typical high quality we have come to expect.

Thank you,

Carlton Shartle, AIA, NCARB
