

3/20/2013

Ben,

I just want to thank you and your crew for a job well done on the MRI suite. James kept us notified of everything as it was happening and if there were delays for any reason he made sure to let us know about them. Even when he was not on site he was checking in to make sure that people had shown up for the projects they were working on. James also helped us with items that weren't even part of his job description which we greatly appreciated.

When we ran into issues with the existing room you all made sure that we stayed on track even if meant working late to keep our delivery date. Thank you so much for making sure everything ran smoothly.

We've had many compliments on how great everything looks!

Thank you,

Tisha Carroll, RT(R)
