Dear Ben,

Shiloh and I did the final walk through with Tim today at McKinney. Everything looks great and there is just a short punch list Tim is taking care of.

It has been an absolute pleasure to work with Tim. He is on top of everything. Keeps Shiloh and myself in the loop with anything that needs our attention. The project has gone like clockwork. Tim has taken care of what few little niggling problems that have come up very efficiently and made my job so much easier!

The facility looks great and we are very pleased with how it all came out.

Kyle is a pretty darn good guy too!

Sincerely,

Theresa Jent
