

Kyle,

Fry Construction stands for quality, in everything that you do. Fry made the initial design and planning phase easy and provided insightful feedback in this area, the experience that you all bring in the Radiology industry in a true value add.

The build out phase was smooth and communication was consistent throughout the project.

The final phase and meeting of deadline and timelines, once again you all were impeccable. Tim McCoy is one of the best Superintendents I have worked with; that title does not do him justice. He goes above and beyond every step of the way. Tim has been available to the McKinney team numerous times following the close of the project to support us with items as small as TV placement and metal studs to as large as the alarm sounding. He is always accessible and willing.

I appreciate Fry and have shared these details with Clete; Kevin as you know is aware of the skill that you bring to the table. I will continue to advocate for Fry, please reach out and keep the lines of communication open with Theresa and I.
