

First of all I would like to congratulate you on a Job well done, it's refreshing to work with such a competent group. In my years of dealing with General Contractors I have never encountered a group of individuals with such willingness to get the job finished on time, within budget, and with such remarkable quality. I attribute this to your outstanding staff, it's because of their hard work and dedication the Imaging center project was such a success. Secondly, I would like to take this opportunity to recognize Jimmy Stevens as an outstanding superintendent. Jimmy's knowledge and experience serves him well, not only is he an asset to Fry Construction, he's an asset to his customers.

I look forward to working with you and your crew in the future.

Jason Hartley,
Construction Manager
