

Department of
Veterans Affairs

Jimmy,

I wanted to send you a note of appreciation for your many years of experience and dedication reflected in your commitment to serve the veterans. Throughout your time at the Dallas VA you have provided a great level of concern and caring to provide the best product supporting the area to be a great health care facility. Your eye to detail linked with many equipment site preps have been an invaluable asset and has made the renovation process in an active medical facility a reasonable effort with positive results. The bottom line is that you take pride in your work and truly care for your fellow person.

I thank you and your company for your assignment at the Dallas VA.

Mike Byerly
Construction Control Representative
Dallas VA Medical Center
