

VA

U.S. Department of Veterans Affairs

Hi Mr. Fry,

I wanted to give you feedback that we at the Houston VA have been very impressed with the quality of work and professionalism Jeff Murphy and his team have been on the Varian Truebeam retrofit project at the Houston VA. Jeff has been extremely responsive to our concerns and our interactions with him have been outstanding and he keeps us well informed with weekly reports. I have walked the site and the it has looked even better than what I imagined. We have had a number of projects in this clinic, and this project has been one of the most seamless so far.

I am sure you get a lot of feedback, so I wanted to add my two cents.

Regards,

Albert Chen MD, Ph.D
