

Subject: VA Big Spring – Pharmacy Project Completion

10/11/2019

Ben,

Frank and the crews that have worked this week on this site prep have done a superior job not only in quality of work but also quantity. They have made quite the impression, from the pharmacy chief all the way up to our director we have heard much praise about the great job they are doing. From coordination to execution these guys have been spot on and very easy to work with. It is a rare occurrence for us to receive this level of customer service and quality work combined. Needless to say we are very pleased. We look forward to working more with you all on this project and hopefully many more.

Thank you all.
