

A Siemens Healthineers Company

Ben,

It's been a while... how are you? Well, I hope

I've been installing a TrueBeam here in Houston at the Houston Precision Cancer Center for the last few weeks and I just wanted to take the time to comment about your superintendent, Jeff Murphy.

As you know, I've been in this industry for a bit with different companies in different roles but, one of the constants for all of my roles has been construction superintendents and dealing with them during the course of my job.

I just wanted to say that working with Jeff has been a real pleasure. His attitude and work ethic has been outstanding and it shows in the quality of work that I see here at Houston Precision. I know that he's new to your company and just wanted to let you know that he's a keeper!
