

Alex,

I wanted to let you know that I did two projects with Fry Construction Superintendent, Elton Palmier recently. Baylor Killeen TX TrueBeam and Reyna CC San Antonio TX VitalBeam. He is a superb Superintendent! Killeen was my first 100% site readiness completion at the time of my Final site visit in a long long time, like years.

San Antonio, the customer demanded Ben cut his const duration from 8 weeks to 5 weeks, I agreed to go down to the wire-meaning completion on Fri before the Sat rig.

Today is the Fri for the rig tomorrow and the site will be 100% this morning with the insertion of ceiling tiles this morning. The site was heavy const Tues of this week when I did my final and the pics scared the installation manager, Minh. I reminded them that I agreed to completion on Fri, they didn't believe me of course but today's pics show otherwise.

Just a FYI in case you have him on one of your projects.

Take care.
